VINTAGE CONDITIONS

The Winter of 2024 arrived later than usual, with the record rainfall and cold temperatures experienced in July allowing for the vineyards to transition into dormancy. This later than usual onset of dormancy resulted in late budding for many grape varieties. Budding and berry set were even, and the cooler, moderate and dry growing season set the scene for the vintage. There was a brief heat spike at the end of December, however, January was cool and dry with big day/night temperature changes, resulting in excellent acidity and freshness being a hallmark of the vintage. February and March were near perfect for ripening, being warm and dry with little disease pressure and no heat wave conditions to stress the vineyards at this crucial time. The result of these conditions was a remarkable, cellar-worthy vintage. The reds are some of the best seen since 2015 with excellent concentration, depth of colour and structure. The whites have wonderful flavour development, fruit intensity and freshness.

VINIFICATION DETAILS

The grapes were hand picked in February. Once back at the winery, they were whole bunch pressed before fermentation in 300L oak barrels using wild yeasts. The wine was aged on its lees for 10 months in 25% new French oak barrels, with the remainder 2nd, 3rd and 4th fill for 8 months
