## VINTAGE CONDITIONS

The 2020 vintage will be remembered as a good vintage produced under the spectre of the COVID-19 pandemic impacting the globe. Fortunately, the harvest was not impacted by the government-sanctioned lockdowns, allowing all fruit to be picked and processed when ripe. A good winter in 2019 saw a return to average rainfall for the year. Two unusual weather events in the growing season, a large rainstorm and a heat wave, impacted some varieties flowering and berry set, however, in the context of the entire vintage these had a minor impact. Crop levels were up by 15% from the 2019 vintage, which saw a return to yields being average to slightly above average for most varieties. Quality wise, the reds tend to be more medium-bodied with moderate alcohols, good freshness and supple tannins, potentially to be enjoyed earlier.

## VINIFICATION DETAILS

Grapes were hand-picked and crushed and de-stemmed on arriving at the winery. Fermentation took place in stainless steel tanks with regular pump overs and an extended maceration of up to two weeks. After primary fermentation the wine was transferred to oak barriques (64% new, 36% second- and third-fill French oak barrels) for 20 months' maturation.
