### VINTAGE CONDITIONS

such as this from Bird in Hand.

2023 continued a recent run of vintages under the influence of a La Nina weather pattern. The vintage was characterised by excellent winter rainfall, cool springtime conditions and a favourable mild summer. The remainder of the ripening period through Autumn was cool, which gave us the ability to spread out the Pinot Noir harvest to pick each parcel at its absolute optimum flavour ripeness.

#### VINIFICATION DETAILS

Following ideal cool, dry ripening conditions the fruit was picked during the coldest part of the late summer evenings. Fruit was destemmed and spent two to four hours on skins to extract flavour and the briefest hint of colour. It was then tank-fermented to maintain the delicate floral and berry characteristics and maintain high natural acidity.
